# TMO-2 Talking Microwave Oven

## Description

The TMO-2 is a microwave oven specially modified to talk for people with low or no vision. It features an adjustable cook time, adjustable power level, a built in kitchen timer, a clock, and an attend to food timer.

The TMO-2 was designed with the visually impaired in mind. Around each button of the keypad is a raised ring to make them easy to locate by touch. A momentary press of any button will tell you what the button does.

## Includes

- Audio instruction cassette tape.
- Written instructions on how to use the talking portion of the oven.
- Original operating Instructions for the oven before it was modified.

## Options

- None

### Note-

Because microwave oven designs change year to year, and based on current model availability, your microwave oven may be different than the one shown in this document. All specifications and the basic look and size of the oven are guaranteed to be similar.

### Warranty

1 year parts and labor.

Modified in U.S.A.
